**239D3/249D3/259D3/279D3/289D3/  
299D3/299D3 XE Features**

**Industry Leading Cab**

*One piece, modular design provides a premium sealed and pressurized cab for a cleaner and quieter operating environment with excellent visibility, wide opening door, and generous leg room.*

**Superior Power**

*High performance power train provides maximum performance with features such as Electronic Torque Management system and an electronic hand/foot throttle with decel pedal capability.*

**Powerful Hydraulics**

*High flow hydraulic system available for applications that demand maximum hydraulic work tool performance.*

**Suspended Undercarriage**

*Standard torsion suspension undercarriage system provides superior traction, flotation and stability to work in a wide range of applications and underfoot conditions.*

**Labor Saving Features**

*The industry leading dual direction electronic self level, return-to-dig, and work tool positioner features make repetitive tasks like grading, digging, and loading fast and easy.*

**Versatility**

*One machine, many tasks. Do more with the broad range of performance matched Cat® Work Tool Attachments, built to get the most out of your machine.*

**Experience the difference of a Cat Compact Track Loader. Spacious operator station features ergonomic joystick controls, ample leg room and an available high back, heated, air ride seat to keep you comfortable all day long. Built for low ground pressure with outstanding performance, comfort and versatility, the Cat D3 Series Compact Track Loaders help you get more done to improve your bottom line.**

# Operator Station

Spacious working environment for all day comfort.

## Base Display

The standard control monitor on 239D3 and 249D3 provides single-code security to help prevent theft and unwanted operation. The full color Advanced Display monitor is available as an option on these models and standard on all other Compact Track Loader models.

## Best Seat on the Job Site

High back, heated, air ride seat available in both cloth and vinyl.

## Superior Comfort

The Cat D3 Series sets a new standard in operator comfort. The wide, spacious interior and uncluttered floor helps you work comfortably and productively all day long. Features include:

- One piece, modular design provides a premium sealed and pressurized cab for cleaner and quieter working environment
- High back, heated, air ride seat with seat-mounted joystick controls for added comfort (option)
- Clear sight lines provide excellent visibility
- Air conditioner and heater for greater comfort in all climates (option)
- Ample leg room with 75 mm (3 in) of additional room for your knees †
- Easier entry and exit with up to a 40% wider-opening door †
- ISO or H-Pattern Control patterns are available to allow the operator to select the control pattern they are most familiar with for greater productivity

†Compared to previous model series

## Advanced Display Monitor

The Advanced Display monitor (standard on most models) lets you customize your machine performance to your needs by offering the ultimate in operator control features and functionality. This easy to read 127 mm (5 in) full color display puts machine information at your fingertips. It provides on screen adjustments to working parameters and preferences such as implement response adjustment, drive response adjustment, creep setting, ride control activation speed, top speed limit setting, language, background color and gauge display style. All parameters can be customized and retained for each individual operator's code. It also provides:

- Security system to prevent unauthorized machine usage
- Capability to program up to 50 operator codes to store and recall each operator's preferences and working parameters, allowing the machine to be tailored to experience level and application
- Integrated rearview camera for enhanced job site visibility
- Provides special information and control screens for Smart Attachments
- Favorites button provides quick access to commonly used screens
- Job Clock helps track costs by monitoring and storing statistics by the job
- Machine maintenance schedule and reminders for optimum uptime

*Vertical Lift Linkage*

*Radial Lift Linkage*

## Lift Linkages

### Choice of lift designs.

Two types of lifting arrangement are available – vertical lift and radial lift – to meet your specific application needs.

#### Vertical Lift

The 249D3, 259D3, 289D3, 299D3 and 299D3 XE feature the vertical lift design which provides extended reach and lift height for material handling or quick and easy truck loading.

#### Radial Lift

The 239D3 and 279D3 feature the radial lift design which delivers excellent digging performance and superior mid-lift reach.

# Power Train

## Aggressive performance.

#### Cat® Engine

The electronically controlled Cat C2.2, C3.3B, and C3.8 engines provide high horsepower and torque. These rugged, reliable engines meet U.S. EPA Tier 4 Final and EU Stage IV\* (C3.8), EU Stage V (C3.3B), and EU Stage IIIB\* (C2.2) emission standards.

\*Stage IV and Stage IIIB engines comply with the transition provisions of the EU non-road emission regulation.

#### Cat Intelligent Leveling (ILEV) System

The exclusive Cat Intelligent Leveling System takes machine performance to a new level and provides industry leading features such as:

- Electronic Dual Self Leveling that allows the operator to automatically maintain a level load whether lifting or lowering
- Return-to-dig which allows the operator to pre-set the digging angle of the bucket and then automatically lowers the lift arms and recalls the bucket angle
- Work Tool Positioner which allows the angle of the work tool (bucket, box rake, cold planer, forks, trencher, etc.) to be pre-set and then automatically recalled if the machine is repositioned, increasing productivity
- Electronic snubbing that automatically cushions the descent of the lift arms, slowing the downward motion just before the arms reach their stops

#### Electronic Throttle

An electronic dial-type throttle lets you set precise RPM setting. When the dial is moved to the high-idle position, the foot throttle functions as a decelerator pedal. This gives you greater control, allowing you to quickly adjust the travel speed during precise maneuvers or to regulate engine speed when using hydro-mechanical work tools.

The throttle-smoothing feature monitors the accelerator pedal's movement under the operator's foot when traveling over rough terrain and adjusts to provide a steadier, more even travel speed.

# Steel Embedded Rubber Track Undercarriage

Suspended undercarriage for versatility, comfort and durability.

## Torsion Suspension Undercarriage

The Cat Compact Track Loaders feature the industry's only standard, torsion suspension undercarriage with a steel embedded rubber track. Heavy-duty torsion axles suspend the CTL undercarriage and can move independently relative to the machine and each other. These axles absorb most of the shock to the undercarriage, machine and operator, especially over rough terrain. This means smooth travel, even at high speeds, as well as better load retention and greater productivity. The performance-tuned undercarriage system delivers improved operating stability while handling heavy loads, grading, or truck loading. Choose bar or block style tread to optimize ride, traction, flotation and ground disturbance for your application.

## Outstanding Durability

The CTL undercarriage system features highly durable and easily maintained components. Steel imbeds provide a rigid support for the entire width of the track and provide excellent durability in a wide variety of applications. Continuously wound cables hold these imbeds in place and provide tensile strength, ensuring the track does not stretch. Following the same philosophy as Cat Track-Type Tractors, the elevated external positive drive system keeps drive components away from ground debris. Planetary final drive motors improve torque and drawbar performance, delivering more power to the ground. Steel rollers with metal face seals provide maximum protection for wheel bearings resulting in long-term durability and reliability in even the toughest conditions. The simple recoil grease tensioning system allows quick track tension adjustment.

## Performance

Solutions for a wide range of applications.

### High Performance Hydraulic System

Maximum power and reliability are built into the Cat hydraulic system to help you get the job done faster. The hydraulic system features outstanding lift and breakout forces. The standard demand fan provides improved fuel efficiency and increased horsepower.

### High Flow Hydraulic Systems

High Flow (239D3/249D3/259D3) and High Flow XPS (279D3/289D3/299D3) hydraulic systems are available for applications that demand maximum work tool performance. The 299D3 XE high flow system features the highest level of hydraulic performance with 94 hydraulic HP (70 kW).

### Two Speed (Standard on all CTL models)

Increase your productivity with standard Two Speed on all Compact Track Loader models.

### Ride Control

The optional Speed Sensitive Ride Control system delivers a smoother ride on uneven terrain for superior comfort, higher speed operation and better material retention.

# Attachments

Do more jobs with one machine using Cat Work Tools.

## The Right Tool for the Job

Designed and built for optimum performance and durability, Cat Work Tools deliver high productivity in a variety of applications to maximize versatility:

- Augers
- Blades (angle, dozer)
- Buckets (general purpose, high capacity, dirt, utility, light material, multi purpose, industrial grapple, utility grapple)
- Brooms (angle, pickup, utility)
- Brushcutters
- Cold Planers
- Forks (pallet, industrial grapple, utility grapple, utility)
- Hydraulic Hammers
- Landscape Tillers and Rakes
- Material Handling Arm
- Mulchers
- Power Box Rakes
- Shear
- Snow Tools (snow blowers, pushes, plows, wings)
- Stump Grinders
- Trenchers
- Vibratory Compactors
- Wheel Saws
- Smart Backhoe
- Smart Dozer Blade with Assist
- Smart Grader Blade with Assist

## Smart Attachments

Plug-and-play recognition between the machine and attachment adapts the joystick controls to match specific Smart Attachments. Special information and control screens can be accessed in the Advanced Display monitor. This high level of integration maximizes productivity by making complex attachments easy to set up and use from the comfort of the cab.

## Quick Couplers

Work tools can be changed quickly and easily with the Cat Compact Track Loader's quick coupler system. The standard quick coupler features manual engagement and disengagement of work tools using two high leverage handles. The optional hydraulic quick coupler allows the operator to quickly change tools without leaving the cab.

# Serviceability

Easy maintenance helps keep your machine working.

## Minimize Your Downtime

Convenient service features make maintenance easy, reducing your downtime:

- Easy ground level access to all routine service points
- Wide opening rear door for easy access to both sides of the engine
- Electric priming pump with automatic air bleed for the fuel system eliminates the need to pre-fill filters with fuel, reducing the risk of contaminants
- Cat Product Link™ system provides remote reporting of machine location and operating system parameters

# Customer Support

Unmatched support makes the difference.

## Renowned Dealer Support

From helping you choose the right machine to knowledgeable ongoing support, Cat dealers provide the best in sales and service.

- Preventive maintenance programs and guaranteed maintenance contracts
- Best-in-class parts availability
- Operator training to help boost your profits
- Genuine Cat Remanufactured parts

## Compact Track Loaders Specifications

### Hydraulic System – 239D3 and 249D3

#### Hydraulic Flow – Standard

Loader Hydraulic Pressure	23 000 kPa	3,336 psi
Loader Hydraulic Flow	69 L/min	18 gal/min
Hydraulic Power (calculated)	26.5 kW	35.5 hp

#### Hydraulic Flow – High Flow

Maximum Loader Hydraulic Pressure	23 000 kPa	3,336 psi
Maximum Loader Hydraulic Flow	99 L/min	26 gal/min
Hydraulic Power (calculated)	38.0 kW	50.9 hp

### Hydraulic System – 259D3

#### Hydraulic Flow – Standard

Loader Hydraulic Pressure	23 000 kPa	3,336 psi
Loader Hydraulic Flow	76 L/min	20 gal/min
Hydraulic Power (calculated)	29 kW	39 hp

#### Hydraulic Flow – High Flow

Maximum Loader Hydraulic Pressure	23 000 kPa	3,336 psi
Maximum Loader Hydraulic Flow	112 L/min	30 gal/min
Hydraulic Power (calculated)	43 kW	58 hp

### Hydraulic System – 279D3 and 289D3

#### Hydraulic Flow – Standard

Loader Hydraulic Pressure	23 000 kPa	3,336 psi
Loader Hydraulic Flow	86 L/min	23 gal/min
Hydraulic Power (calculated)	33 kW	44 hp

#### Hydraulic Flow – High Flow XPS

Maximum Loader Hydraulic Pressure	28 000 kPa	4,061 psi
Maximum Loader Hydraulic Flow	121 L/min	32 gal/min
Hydraulic Power (calculated)	57 kW	76 hp

### Hydraulic System – 299D3

#### Hydraulic Flow – Standard

Loader Hydraulic Pressure	23 000 kPa	3,335 psi
Loader Hydraulic Flow	86 L/min	23 gal/min
Hydraulic Power (calculated)	33 kW	44 hp

#### Hydraulic Flow – High Flow XPS

Maximum Loader Hydraulic Pressure	28 000 kPa	4,061 psi
Maximum Loader Hydraulic Flow	121 L/min	32 gal/min
Hydraulic Power (calculated)	57 kW	76 hp

### Hydraulic System – 299D3 XE

#### Hydraulic Flow – Standard

Loader Hydraulic Pressure	23,000 kPa	3,335 psi
Loader Hydraulic Flow	86 L/min	23 gal/min
Hydraulic Power (calculated)	33 kW	44 hp

#### Hydraulic Flow – XE

Maximum Loader Hydraulic Pressure	28,000 kPa	4,061 psi
Maximum Loader Hydraulic Flow*	150 L/min	40 gal/min
Hydraulic Power (calculated)	70 kW	94 hp

\*When equipped with Cat 400 Series work tools.

13 Maximum Dump Angle		50.3°
14 Vehicle Width (320 mm/12.6 in tracks)	1676 mm	66.0 in
Vehicle Width (400 mm/15.7 in tracks)	1756 mm	69.1 in
15 Turning Radius from Center – Machine Rear	1458 mm	57.4 in
16 Turning Radius from Center – Coupler	1159 mm	45.6 in
17 Turning Radius from Center – Bucket	2069 mm	81.5 in
18 Maximum Reach with Arms Parallel to Ground	1356 mm	53.4 in
19 Rack Back Angle at Maximum Height		85.5°

\*Operating Weight, Operating Specifications and Dimensions all based on 75 kg (165 lb) operator, all fluids, 1730 mm (68 in) low profile bucket, 320 mm (12.6 in) tracks, standard flow hydraulics, C0 cab (ROPS, static seat), 850 CCA battery, manual quick coupler, no self level and no optional counterweights (unless otherwise noted).

# 249D3 Compact Track Loaders Specifications

## Dimensions\*

All dimensions are approximate.

	<b>249D3</b>	
<b>1</b> Length of Track on Ground	1384 mm	54.5 in
<b>2</b> Overall Length of Track	1808 mm	71.2 in
<b>3</b> Length without Bucket	2523 mm	99.3 in
<b>4</b> Length with Bucket on Ground	3233 mm	127.3 in
<b>5</b> Height to Top of Cab	2039 mm	80.3 in
<b>6</b> Maximum Overall Height	3831 mm	150.8 in
<b>7</b> Bucket Pin Height at Maximum Lift	3002 mm	118.2 in
<b>8</b> Bucket Pin Height at Carry Position	219 mm	8.6 in
<b>9</b> Reach at Maximum Lift and Dump	727 mm	28.6 in
<b>10</b> Clearance at Maximum Lift and Dump	2253 mm	88.7 in
<b>11</b> Ground Clearance	194 mm	7.6 in
<b>12</b> Departure Angle		34.5°
<b>13</b> Maximum Dump Angle		48°
<b>14</b> Vehicle Width (320 mm/12.6 in tracks)	1676 mm	66.0 in
Vehicle Width (400 mm/15.7 in tracks)	1756 mm	69.1 in
<b>15</b> Turning Radius from Center – Machine Rear	1458 mm	57.4 in
<b>16</b> Turning Radius from Center – Coupler	1160 mm	45.7 in
<b>17</b> Turning Radius from Center – Bucket	2060 mm	81.1 in
<b>18</b> Maximum Reach with Arms Parallel to Ground	1317 mm	51.8 in
<b>19</b> Rack Back Angle at Maximum Height		87.5°
<b>20</b> Bucket Pin Reach at Maximum Lift	311 mm	12.2 in

\*Operating Weight, Operating Specifications and Dimensions all based on 75 kg (165 lb) operator, all fluids, 1730 mm (68 in) low profile bucket, 320 mm (12.6 in) tracks, standard flow hydraulics, C0 cab (OROPS, static seat), 850 CCA battery, manual quick coupler, no self level and no optional counterweights (unless otherwise noted).

# 259D3/289D3 Compact Track Loaders Specifications

## Dimensions\*
